

I am not a politician, I am a Christian, hard-working middle-class husband of a smart and beautiful woman. I have lived throughout Riverside County and have found Wildomar to be our home. Wildomar is a small but growing city. I support growing and strengthening local police, fire departments, and businesses. I am a firm believer that the citizens of our city should be heard and respected. I will be the outlet to make those voices heard. My main concern is the growing drug use/homelessness occurring in neighboring cities making its way to Wildomar. I plan to work with local law enforcement, rehab centers, and outreach programs to ensure our city does not become a haven for drugs, homelessness, and crime. I have worked in casinos and casino management since 2005. Casino management has taught me decision making, finances, and employee management skills that I believe transfer well to City Council. In business and my personal life, I strive to be honest and fair and will bring the same conviction to the city council. My goal is to make the city better for all residents with open and honest communication.

Thank you for your support.

Matthew Baldwin
